EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Stanley R. Moore on September 17, 2003.

The application has been amended as follows:

On page 6, line 17 of the specification, deleted "4.4" and inserted --- 4.8 ---.

2. The following changes to the drawings have been approved by the examiner and agreed upon by applicant: Figures 1 and 2 are to be labeled as "Prior Art". In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

3. The following is an examiner's statement of reasons for allowance: While the prior art does demonstrate a fluidized bed with a flow deflector which is an annular plate (such as element 32 of Rhee et al. 4,877,587) or a conical plate (such as in fig. 6 of Rhee et al. 4,877,587 or element 48 of Clarke 2,690,962), the prior art neither teaches nor suggests both conical and annular portions of flow deflector so as to form three distinct flow paths as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The prior art is not relied upon for rejection, but solely to demonstrate the state of the art.
